AI in Australian businesses, 2024-25 . By Vimuth Abeysinghe . October 2026

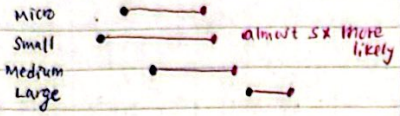

Opening paragraph: 12 % of businesses use AI (1% in 2020-22); 38% in media & telecoms.

01 The bigger the business, the more likely it uses AI

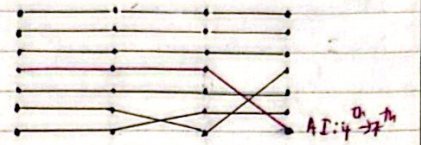

02 Attitude matters most

Innovators far more likely to use AI

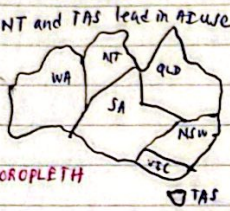

03 A newcomer jumps the queue

AI is the 4th most used tech under 200 staff

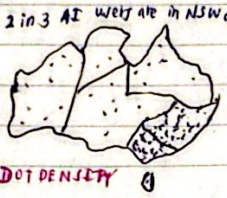

04 The smallest territories are the keenest

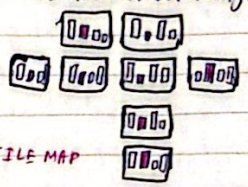

NT and TAS lead in AI use

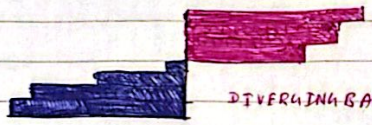

2 in 3 AI users are in NSW or VIC

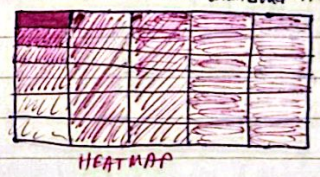

AI ahead of IoT & analytics

05 Desk jobs lead, trucks and tractors lag

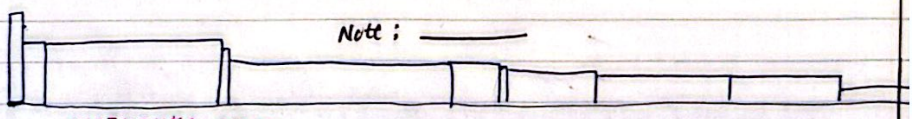

AI varies far more than cloud/platforms

Professional services has almost 1 in 3 businesses using AI

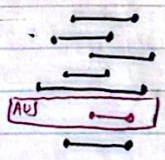

Note: _____

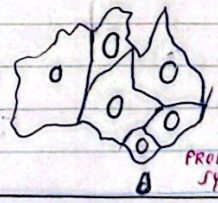

06 Australia vs Europe

AU ranks 27th of 33

07 What's holding businesses back?

Conclusion:

About the data
